

*We cordially welcome you to Kristies!*

*My name is Kristina, a lover of adventure, art and magical flow and I am the author of the space that you are in right now. I love to dream and to realise those dreams even more. Kristies is one of my life goals in which I have connected all of my abilities, experiences and passions. If you need to escape the everyday rush for a while, stop minding time and turn into your own self, this is the right place for you.*

*The only sure thing in life is change. Some roads to changes are shorter and some are longer. In both cases you need courage to step outside of our comfort zone. These experiences help us discover different parts of ourselves and to build our own life story exactly how we need it. And to be honest, we don't always like being on our own for that. For a long time I've dreamed that one day I'll create a calm and caring place, that awakens the imagination and gives courage to make important decisions. Maybe even yours. Our decisions are important, because big things cannot happen without big plans first. A place, that uplifts you, whenever you feel yourself slipping away from you. A place where you can start believing their dreams. Kristies is a harbour for all new age wonderers, that want to encounter the present moment 'here and now' and share their thoughts, experiences and adventures with other 'wonderers'.*

*Kristies is not just a cafe with great organic food. You can also find a shop with original jewellery, which is behind the birth of the entire Kristies. Amulets were always a symbol of bravery for me and helped me in my determination. Maybe it was this, that made me to create them for others as well. Every single jewel is intertwined with a story, that origins from intuitive process in connection to the source of inspiration. I trust that during the creation, the stars are already searching for a new home for every single piece of jewellery. Then they are just patiently waiting where life takes them, so that they can fulfil their mission and light up the way for those that need them. Doesn't matter if you're looking for protection, bravery, inner strength, prosperity, magical new start or nothing at all.*

*Everything, that you can find in our store is nothing that you necessarily need, but I can assure you, that whatever you buy here will become something that you love and a staple in your life, just like it happened to us.*

*Food and drinks, that you can taste here are prepared with care and love in a way of a small personal rituals, exactly like we like it. We trust that we'll hit the mark in your tastes and that you'll enjoy every sip and every bite.*

# Kristies
